What is Kindermusik?

Kindermusik is the premiere early childhood music and movement program. Founded over 25 years ago, the Kindermusik International Creative Team has created the Kindermusik curriculum to be taught only by Licensed Kindermusik Educators. The purpose of Kindermusik is to enhance total child development through exploratory musical activities.

While activities vary by age range, they include singing, listening, vocal and rhythmic play, dancing, chanting, bouncing, exploring simple percussion instruments, and experiencing a wide variety of musical examples, including folk songs, classical music, multi-cultural songs, jazz, and music original to Kindermusik.

Additionally, Kindermusik classes always include a set of high quality materials including CD's, books, instruments, home activity guides and more to help you continue your musical experience at home.
