Description

The Remo 18-4201-70 Replacement Tubano Foot measures 4" in length, 2" high, 1" thick and includes screws to easily replace a broken foot.

Wear and tear happen on most instruments. This replacement foot when installed correctly will allow your drum to sit stationary again. The Tubano replacement foot is recommended for newer models of Remo 50 (Pre-tuned) series and 100 (Key-tuned) series. Assembly is required.

What's included:

- 1 foot
- 2 screws
- 1 instruction sheet

What you'll need to get started (not provided):

- rubbing alcohol
- drill
- 3/32" drill bit
- super glue that contains cyanoacrylate

To further ensure that your Tubano feet will stay in tact do not lean on the drum, lean it to play it, or drag it by the feet when moving.

*Please give us a call if you have questions about what series of Tubanos you have and if this Remo Tubano Replacement Foot will fit your model.
