## Product Images

## Description

---

The DB500 Direct Box transforms any high-impedance 1/4" source into a low-impedance (XLR) signal ready to be sent long distances to a mixing board or recording console. Its passive design features a high quality transformer, ground lift switch, and does not require batteries or phantom power. Perfect for bass/acoustic guitar, keyboards, and DJ equipment.

On-Stage DB500 Passive Direct Box features:

Single channel, passive direct box

Transform any high-impedance 1/4" source into a low-impedance (XLR) signal

High-quality transformer

Ground lift switch

Specifications:
