## Description

### Fun, Fast and Flexible!

Since their introduction, flipFORMs have become one of the most quickly accepted product innovations in Wenger's history. That's because they were designed to meet the needs that no other piece of equipment can -- fast-changing, flexible, fun, interactive environments that adapt to the way you teach. And, with an improved design, they are better than ever. As a flat platform flipFORMs work separately or can be pushed together to create a stage for your performers. With a simple flip, you can create tiered seating and with another flip you can create standing risers. When you want to open up your floor space, flipFORMs roll out of the way on built-in, recessed wheels.

### Features:

- Platforms: The ideal shape for small group choreography, color teams, tables and more. A set of four can be pushed together to make an 8' x 10' performance stage.
- Tiered Seating: Flip the larger section onto the core to create two tiers of seating. Stable, comfortable, quiet seating that eliminates a room full of chairs without doing away with a place for students to sit. Standing
- Risers: Another simple flip creates great standing risers for the classroom or performances. Risers elevate students so they can be seen and heard by teachers and parents.
- Out of the Way: flipFORMs tip up onto stable wheels and can easily be rolled out of the way and into compact storage. You'll be amazed at how quickly you can open up your room and move between lesson activities with flipFORMs.

## Available Options:

- Set of 4, Model 1801002, 1 of each color: blue, green, yellow, red (Item# 530338)
- Black Top/Black Base, Model 025D028 (Item# 530343)
