## Description

---

*Sashay the Donut: Even More Dances for Just About Anybody* by the New England Dancing Masters is an engaging book of folk dances with a companion CD that includes music for each dance. This collection is a mix of traditional and more recently composed Anglo/American dances in circle, longways, square, Sicilian circle, contra and scatter mixer formation.

Included, is a guide for leading a Grand March, a marvelous dance with 4 longways sets laid out in a giant "X", some very simple square dances, a circle waltz mixer that is great for weddings, a dance that teaches children how to polka, a big southern circle dance, and historic English country styled dance where the dancers become kings and queens, and the ever-popular Sasha - a scatter mixer which may or may not be from Russia.
