## Description

---

“Sound Innovations: Ensemble Development for Intermediate Concert Band” is a collection of 412 exercises, including more than 70 chorales, that supplements any classroom method for intermediate level bands. This valuable resource will aid band students in improving their abilities as a well-rounded ensemble player. Exercises are grouped by key and present a wide range of difficulties to challenge intermediate-level players. Exercises and chorales in this book work on dynamics, phrasing, tempo, articulation, and technical facility.
