Description

Alfred Music has developed a fantastic method just for children with the Kid's Ukulele Course 1. This book includes online audio access for additional support. The Kid's Ukulele Course will teach children aged 5 and up to play songs from the very beginning of their musical abilities.

Three adorable assistants- a smart classical dog, a fresh jazzy cat, and a friendly alligator who plays the blues - guide students through every lesson and activity. They help kids focus on learning critical information and keeping their attention on the page.

This course is perfect for individual students, classrooms, and home lessons. Even parents who don't have prior musical training can guide children through this method.
